## SUMMARY

Technically advanced Front End Developer with hands-on experience designing, developing and delivering user-centric web applications using VS Code with extensions for live server and code formatting. Offering sound knowledge in multiple programming languages, including HTML, CSS, JavaScript, Python, and React. Seeking an opportunity to secure a challenging position as a Front/Back End Developer. Additionally has a learning attitude with a positive mindset and hardworking approach toward given tasks and work projects.

## EXPERIENCE

### Frontend Developer — Ambros Tech Solutions

August 2025 - July 31, 2026

Jagadhri, Haryana, India

- Worked on a live project: [www.bangalorestudy.com](http://www.bangalorestudy.com)
- Worked on a live project: [www.keralastudy.com](http://www.keralastudy.com)
- Developed and optimized responsive landing pages for clients using HTML, CSS, JavaScript, and React.js.
- Ensured cross-browser compatibility and mobile responsiveness across devices.
- Spearheaded the design and development of client-facing landing pages, translating business requirements into engaging, high-performance web experiences.

## PROJECTS

### Sundown Website Clone

- Designed and developed a visually accurate and responsive clone of the original Sundown website.
- Implemented modern UI/UX patterns using HTML, CSS, JavaScript, React, and GSAP.
- Optimized animations, layout, and page performance.

### Webcom Institute

- Developed a website for the institute with easy accessibility and user-friendly design as per requirements.
- Created a simple and responsive To-Do List application using HTML, CSS, and JavaScript that allows users to add, delete, and mark tasks as complete.
- Data is stored locally using the browser's Local Storage to retain tasks even after refresh.
